NOTES:

- **Assembly:** All students gather together every morning to hear announcements about the day ahead. Assemblies also provide an opportunity for students to receive awards for good work or behaviour, and to practise their public speaking presenting information and topics learned during their class time.
- **Bushcraft:** Our school woodlands present the perfect opportunity for students to enjoy the natural environment. During these sessions qualified Bushcraft trainers teach wilderness survival skills such as how to light fires, shelter-building, navigation and how to use certain tools.
- **Sports Coaching:** Week long training by a professional sports coaches in an English school sport. See the website for more information.
- **Movie Making:** A drama project where each class writes a short screen play together over the three weeks. Every student plays a character in this production which is filmed, edited, and shown to the whole school on a big screen at the end of the course. The movie is also provided on a USB drive for students to take home with them.
- **Journal:** During this time students reflect on their lessons and activities of the day and complete a journal which they can take home with them at the end of the course. We find this is a good way to embed the things they have learned in their lessons and experiences during the course.
- **Activities & Excursions:** There is an extensive and varied programme of activities. See the website for more information.
